

SPEAKER INTRODUCTION

Welcome & Warning, stand back and hold on because Stuart Ellis-Myers lived with Tourettes Syndrome!!

What would you do if, out of the blue, your life turned upside down? What if you went from being a happy and healthy normal child, and then suddenly became an anxious, depressed, twitchy mess of devastating proportion? This is exactly what happened to Stuart Ellis-Myers. At the age of eight, Stuart began to develop one of the most misunderstood neurological disorders of our time . . . Tourettes Syndrome. Faced with the prospect of a lifetime of disability, frustration, isolation, and shame – the typical reaction to this tragic condition – Stuart instead chose to share how everyone can experience a remarkable and Unstoppable life.

One of the most gifted and inspiring public speakers on the conference circuit today. Twitchy has used the life lessons learned through years of battling this often emotionally crippling condition to help countless others to overcome their own challenges and fears. His insight and humanity have enabled him to share his own, often painful, experiences in such a way as to offer a real, usable, methodology for overcoming the many pitfalls of modern life. The countless physical and psychological manifestations of our high stress lives are made clearer to understand and easier to bear through his simple and effective system of Unstoppable & Mental Health to Mental Wealth change. Hold on because Stuart is about to take us on a trip through the life of a man held captive but not broken by his mental health condition and who found the strength and determination to break free by sharing his Unstoppable message of true and lasting love.

Twitchy is right now literally itching to get onto this stage. So please join me in giving Twitchy a warm welcome!!
